

# RocketDocs & Door: Unlocking Efficiency in Asset Management

## The Collaboration

RocketDocs and Door have joined forces to introduce a groundbreaking service that empowers asset managers to enhance their client interactions and optimize data management. Door now seamlessly tracks real-time updates on asset managers' investment strategies via RocketDocs, which are promptly relayed to Manager Research Teams.

## Live Data for Investment Research

Asset managers can now furnish live data for investment research and due diligence, cutting time and ensuring the robust dissemination of critical content, a pivotal factor in risk management for clients.

## The Demand for Seamless Solutions

Over the past few years, there has been an increased demand for secure and robust cloud-based solutions that bridge office and remote environments. Door's integration with the asset managers' ecosystem enhances the externalization of data to their wealth management clients, saving time and improving efficiency.

## Empowering Client Experience

As technology improves, it is important to underscore the need for faster and more efficient information delivery to clients. The integration between RocketDocs and Door perfectly aligns with this goal, facilitating a faster and seamless service.

## A Unified Offering

The integration between RocketDocs & Door significantly enhances efficiency for asset manager customers. This collaboration synergizes the strengths of both RocketDocs and Door's technologies, delivering a level of efficiency that goes beyond the sum of its parts.

We look forward to witnessing the remarkable efficiencies and improved client experiences this integration will bring to asset managers and their research teams. To discover this integration and many more, click on the button below!
